My apologies for being late with the newsletter & of coarse the low content. I've been working 7 days a week and, until now, simply hadn't the time. On a high note there are some pictures from the June fun fly on the web site by Joe Stoklasa. I antcipate the newsletter returning to normal for next month!-----*edito*

For your pleasure, a couple of pics of John's neat little F16 on takeoff. Hot little bird that later lost a wing in flight. Stressfull stuff for us & the birds!-----*editor*

John's F16 just starting it's launch on the bungey chord. You can just make out the red leader attached to the plane.

The F16 off the ground & flying. You can just make out the red leader still attached.-----*editor*
